

Company Introduction

Founded in 1973

The Glen Dimplex Group was founded in 1973 by Martin Naughton.

Employment

We have over 8,000 employees across the globe, including over 200 at GD Australia.

Our Purpose

We're committed to leading the transition to a sustainable world across all countries and divisions

Privately Owned

Glen Dimplex remains privately owned and finances its on-going expansion from its own resources.

Global brands

A portfolio of more than 30 brands supplying products to over 40 countries worldwide.

Innovation

Our culture of innovation has allowed us to grow to a global leader in research & development. Globally we have over 500 development engineers and leading industrial designers.

Australian Homes

We are proud to have over 9 million products in homes across Australia.

Clientele

Over 1,300 developers and 1,000 shop fronts utilise Glen Dimplex products across Australia

Brand History

A wide brand portfolio with heritage of over 100 years. Our brands stand the test of time through continued innovation.

Service

Nation wide in-house service experts and fully qualified technicians making the service experience second to none.

Employees

Employing over 200 staff across the country in R&D, Sales, Manufacturing, Logistics, IT, Finance and more.

Manufacturing

We have 2 Australian manufacturing sites in SA & VIC along with dedicated local product development teams, focusing on products designed for the Australian market.

Our leading
kitchen brands

Welcome to the world of Belling where 100 years of experience meets the highest of demands in terms of flawless design, innovation, exquisite quality and world leading technology. Proudly British with most cooking appliances crafted in the UK, a Built-In or Freestanding appliance will satisfy the cravings of the most demanding culinary enthusiasts. Our kitchen appliances represent excellence in every facet of our products and make a lasting statement in any kitchen.

Euromaid

At Euromaid, we have been providing outstanding kitchen and laundry appliances to the Australian market since 1995. Our underlying philosophy to provide functional and high-quality appliances that represent great value for money continues to drive us forward today. Adherence to these brand principles has allowed us to become one of Australia's largest kitchen and appliance brands, supported by all major electrical retailers.

TECHNIKA®
COOKING WITH PASSION

Technika has helped Australian families make lasting memories for over 20 years. Every appliance we make is designed right here in Australia to ensure the highest quality. Whether you're building a new home or upgrading to a professional standard, build your dream kitchen with Technika innovation and quality. Surround yourself with the sophistication and style of our most popular range. The choice of Australia's leading builders.

Our leading
fireplace brands

Real Flame has been manufacturing gas fireplaces in Australia for more than thirty years. As well as being leaders in fireplace technology, its products are meticulously finished using only high quality materials and the very latest safety devices. In 2014, with a new range of pit fires, Real Flame's technology moved to the garden and beyond. Real Flame designs, develops, and assembles gas products in Melbourne while leveraging Glen Dimplex's design and manufacturing expertise to complete the product range.

With a Nectre fireplace, you're also choosing reliability and quality. We've been crafting fireplaces in South Australia since 1978, which has earned Nectre an excellent reputation locally and all over Australia. We're confident we'll have the right fireplace for your winter dream, whether you're looking for a traditionally styled fire to bring charm to your home or a more contemporary fireplace to add a touch of sophistication to your living space.

When you choose a Masport wood fire, you also embark on a long-term relationship with us. Masport Heating products are designed specifically for Australian homes. We are passionate about providing the most inspirational design and advanced technology to give you the best fire. We strive to care for Australia and its environment, and we are proud to be at the forefront of a new generation of clean burning, ultra-efficient wood fires.

Our leading
Home brands

Dimplex®

For nearly 70 years, Dimplex has been a leading brand in the field of electric home heating, bringing hundreds of new products and inspirational designs to the market. With a history of evolution, innovation and experimentation with new technologies, Dimplex has become the number one choice for people who want efficient, affordable and the most reliable products. Our strong heritage and long-held passion for what we do drives investment across all areas of the brand from research & development to delivering exceptional customer service.

NOBO

Nobo heating solutions are designed to be discreet, the sleek Scandinavian design blends into any style space, with the addition of the Energy Control System enabling the house heating to be a simple setup. The technology platform sets the standard for electrical heating, with innovative timer controls, temperature sliders and pre-set timings all helping to reduce electricity bills. As Renewable energy grows in importance and the world moves more to electric, the Nobo panels are a smart and energy efficient choice.

morphy richards®

Morphy Richards has been revolutionizing home appliances for 85 years. We're always innovating and adapting new products to make sure that our designs and technology are always ahead of the game, but one thing has remained the same since the beginning: our philosophy of creating high-quality and reliable products for affordable prices. We create products that will work better and last longer. Striving for a more sustainable future for everyone.

Our leading
Outdoor brands

CROSSRAY® BBQs have evolved from technical innovation and development over 10 years. Crossray is like cooking over a bed of red hot coals; providing even heat, reducing flare-ups to produce tastier food. This is achieved using patented infrared cooking technology and includes both gas and electric versions, in portable, in-built and outdoor kitchen options. CROSSRAY gas BBQ's are the only BBQ that can provide controllable, even heat from 140°C to 350°C+, while using 50% less gas than a conventional BBQ.

HEATSTRIP®

Heatstrip outdoor gas and electric heaters are proudly designed, engineered and supplied in Australia and exported to world markets. Heatstrip has been engineering innovative, stylish and energy efficient products since 1988. With Heatstrip innovative heating solutions there is no need to abandon the outdoor area or compromise your style with bulky unpleasant heaters. In Australia, many large venues enjoy the style and performance that Heatstrip has to offer. While they are suitable for commercial use, our award-winning heaters are also ideal for residential alfresco areas.
